Connecting to MYSQL ODBC

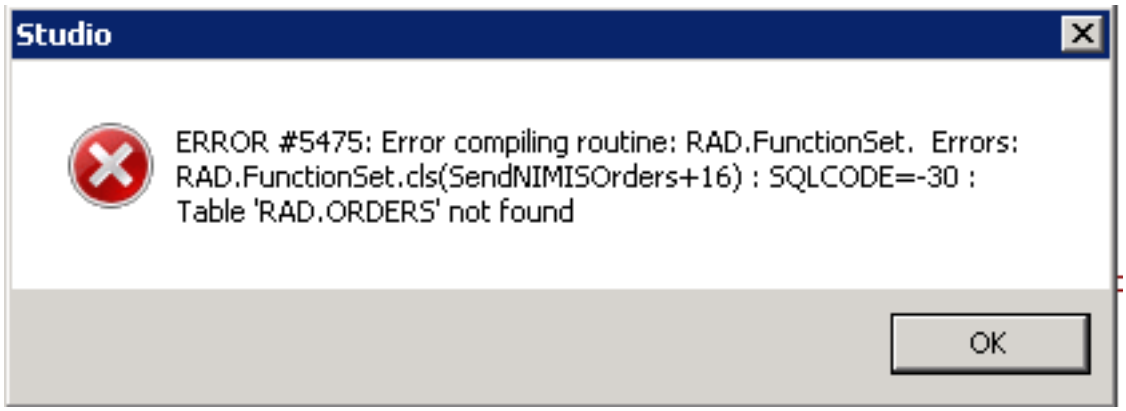
Hi, Is there a way to connect to a MYSQL ODBC? I tried using the SQL Connect class but getting an error.

```
Set conn=##class(%SQLGatewayConnection).%New()
Set sc=conn.Connect("databasename","username","password")

&sql(insert into ORDERS (column1, column2, column3, column4, column5) values(:value1,:value2,:value3,:value4,:value5))

s sc=res.Close()
Set sc=conn.Disconnect()
```

But I am getting an error :



Please can you advice how I can do this?
