Zen Mojo - JQuery Mobile Define Charset

I am trying to define the charset for a JQM Application and it is not working. I have tried the following options without success:

Method %OnDrawHTMLMeta() As %Status

```
{
    Write "<meta name=""viewport"" content=""width=device-width, initial-scale=1.0,maximum-scale=1, user-scalable=no""/>"
    Write "<meta http-equiv=Content-Type content=text/html; charset=utf-8 />"
    Quit $$$OK
}
```

Method %OnDrawHTMLMeta() As %Status

```
{
    Write "<meta name=""viewport"" content=""width=device-width, initial-scale=1.0,maximum-scale=1, user-scalable=no""/>"
    Write "<meta charset=utf-8 />"
    Quit $$$OK
}
```

Can you help me please?

Thanks.
