Internet Explorer 8, 9 and 10 die on Tuesday, January 12th.

You may have missed the news that support for older version of Internet Explorer ends next week Tuesday, January 12th. The original blog post from Microsoft can be found here:

<https://www.microsoft.com/en-us/WindowsForBusiness/End-of-IE-support>

A patch will go live next week Tuesday, that will nag users of older IE versions to upgrade to a recent version. The patch is identified as KB3123303. You can find more information about this patch here:

<https://support.microsoft.com/en-us/kb/3123303?sd=rss&spid=14019>
