Hi, Community!

The [Second Global Summit Free Registration Contest](#) is running and we have only one week to celebrate new winner!

Here is current leaderboard amongst non-InterSystems DC Members after a half of the race:

(If you want to see contribution from InterSystems employees just set the filter value in the Deepsee dashboard)

John Murray contributed more than others last week. John is a leader, but he did the result only for one week!

There is one week more and so everyone can be a winner!
