Developer Community Update Thursday March 17th

We will be publishing another update to Developer Community tomorrow, March 17th with the following enhancements and fixes:

**** Task**

- * [DCE-61] - Give content authors a way to Save Draft
- * [DCE-66] - Fix line wrapping in post listing
- * [DCE-69] - Developer Synchronization: New block for feedback link
- * [DCE-70] - Developer Synchronization: Fix paging for /group
- * [DCE-71] - Developer Synchronization: Main page now filtering Feedback
- * [DCE-72] - Verify that all pages w/right-hand column have the same column dimensions
- * [DCE-73] - Remove "Recent Posts" and "Related Groups" blocks from /groups
- * [DCE-75] - Developer Synchronization: Subscription settings

**** Bug**

- * [DCE-62] - WYSIWYG editor blocks browser spell check functionality
- * [DCE-63] - Hidden fields in Edit Profile
- * [DCE-65] - Users should not be allowed to personalize blocks
- * [DCE-67] - Post listing possibly still showing MAX(PostDate, LastCommentDate) instead of PostDate
- * [DCE-68] - Comments to Answers need to be threaded
- * [DCE-74] - Authors should be able to edit their own content
