Developer Community April 2016 Digest

Hi!

Here is April digest of most interesting and valuable postings on Developer Community in April 2016.

Here we go!

News and Events

[InterSystems Global Summit 2016 - Session Content](#)

[Sources for InterSystems Global Summit 2016 Sessions and Experiences](#)

[2015.2.3 Maintenance Release](#)

[Zen Mojo 1.1.1 released](#)

[Removal of in-memory connection mode for Java XEP](#)

[Kindle Edition of Caché and MUMPS – Part II is released](#)

Most viewed

[Caché Class Explorer — exploring Caché in the UML notation](#)

[InterSystems Data Platforms and Performance Part 4 - Looking at Memory](#)

[InterSystems Global Summit 2016 - Session Content](#)

[A National Provider Directory powered by HealthShare HSPD and Amazon Web Services](#)

[2015.2.3 Maintenance Release](#)

[Sources for InterSystems Global Summit 2016 Sessions and Experiences](#)

[Try catch block I usually use in COS](#)

[Static code analysis tool for ObjectScript \(presented at Phoenix\)](#)

[Global Summit 2016 - A Tour of Atelier, Our New Eclipse-Based IDE](#)

[Import/export data from InterSystems Caché](#)

[Best Ensemble Global Buffer Configuration](#)

Most commented

[Try catch block I usually use in COS](#) - 18

[\[Announce\] Experimental project for unit testing + coverage; and help needed](#) - 14

[Atelier and Angular JS](#) - 11

[Feedback on Product Documentation?](#) - 11

[%Library.GlobalCharacterStream deprecated](#) - 9
