Developer Community June 2016 Digest

Hi!

Here is the digest of the most interesting and valuable posts on Developer Community published in June 2016.

Here we go!

News, Events, releases

Update to 2016.1.1 Maintenance Release

2016.1.1 Maintenance Release

2016.2 Field Test Kit 2016.2.0.677.0

Most viewed

What is the best way to serialize object/list/array/etc to string?

Caché Open Authorization Framework (OAuth 2.0) implementation - part 1

Language Extensions

Producing JSON from SQL

How to remove a job PID from a production

Developer Community May Digest

Get variables list

Ensemble monitoring

Capture the output from REST Operation

[Ensemble Production Interface] Can anyone tell me what this means?

Most commented

Business rule doubt - 17

Get variables list - 16

What is the best way to serialize object/list/array/etc to string? - 15

CSP Illegal Value error - 12

[Is there a way to reassign $ZPARENT JOBbed process variable when parent process terminates?](#) - 11

[HIE Dashboard, where should I start? (without DeepSee)](#) - 10

[Cheap object hashing?](#) - 9

[[Ensemble Production Interface] Can anyone tell me what this means?](#) - 9

[Capture the output from REST Operation](#) - 9
