Serenji 2.6 is now available

We at George James Software are pleased to announce the release of version 2.6 of Serenji, our editor and debugger for Caché, Ensemble and HealthShare.

The main enhancement in 2.6 is the ability to run on a Linux <edit> or OS X </edit> workstation using Wine 1.8. More release details are here.

This is a free upgrade to users already holding an activation key. For new users a free 30 day evaluation period is granted upon installation.
