## Developer Community July 2016 Digest

Hi, Community!

Here is the digest of the most interesting and valuable posts on Developer Community published in July 2016.

Here we go!

News, events, releases

[2015.2.4 Maintenance Release](#)

[Developer Community email notification subscriptions](#)

[Serenji 2.6 is now available](#)

[Developer Community June 2016 Digest](#)

Alerts

[Alert: Potential Integrity Issue with Mirroring](#)

Most viewed

[InterSystems Example Reference Architecture for Microsoft Azure Resource Manager \(ARM\)](#) - 368

[Caché Haiku](#) - 282

[Useful auto-generated methods](#) - 259

[How we learned to stop worrying and love InterSystems Ensemble](#) - 236

[Caché tricks - capture write output to variable](#) - 204

[Using Regular Expressions in Caché](#) - 162

[Best way to compare two arrays for "equality" \(same subscripts and values\)](#) - 137

[Improve SQL Performance for Date Range Queries](#) - 133

[Source Control For Caché / Ensemble](#) - 133

[Remote proxy objects via dynamic dispatch](#) - 125

Most voted

[How we learned to stop worrying and love InterSystems Ensemble](#) - 11

[InterSystems Example Reference Architecture for Microsoft Azure Resource Manager \(ARM\)](#) - 9

[On \\$Sequence function](#) - 9

[Caché Haiku](#) - 8

[Useful auto-generated methods](#) - 7

[Using Regular Expressions in Caché](#) - 7

[Improve SQL Performance for Date Range Queries](#) - 6

[Zinsert and friends: Coding in terminal](#) - 6

[Remote proxy objects via dynamic dispatch](#) - 6

[Cache编译后的文件的other权限](#) - 5

#### Most commented

[Overriding the property setter and getter methods](#) - 13

[Useful auto-generated methods](#) - 9

[Caché Haiku](#) - 9

[Need a table or schema API](#) - 9

[Get the XML Subtree from XPATH DOM Resultobject](#) - 8

[How do I execute a "Basic Class Query?"](#) - 8

[How to install Cache?](#) - 8

[Database Table Size](#) - 7

[Remote proxy objects via dynamic dispatch](#) - 7

[Personal Community - Custom SDAProcessor](#) - 7
