InterSystems Developer Community August 2016 Digest

Here is the digest of the most interesting and valuable posts on Developer Community published in August 2016.

Here we go!

News, events, releases

[JSON changes in Caché 2016.2](#)

[Announcement about the Caché 2016.2 and 2016.3 Field Test Programs](#)

[Alert: Database Compaction](#)

[2016.1.2 Maintenance Release](#)

Most viewed

[Announcement about the Caché 2016.2 and 2016.3 Field Test Programs](#) - 406

[JSON changes in Caché 2016.2](#) - 306

[What is causing the journals to grow rapidly?](#) - 197

[Writing forward compatible JSON in 2016.1](#) - 190

[how to connect to the Cache database from node.js ?](#) - 188

[Caché MapReduce - introduction to BigData and MapReduce concept](#) - 155

[NewBie's Corner Session 17 New command](#) - 153

[Global references done internally by Cache](#) - 145

[Tips & Tricks - Process-private Globals as a class storage](#) - 118

[ZUTILS](#) - 114

Most voted

[Improve SQL Performance for Date Queries. AGAIN!](#) - 8
