Cache class Program

I get a input from user.How to I retrieve the data from these input. I enter the program but its occurred Some error .So give an idea of how to retrieve the data from properties.

```
ClassMethod Getvalue()
{
S Details = ##class(Sample.Employeedetails).%New()
r "Enter Your Name:" , Name1
s Details.Name = Name1
r "Enter Your Address :", Address1
s Details.Address = Address1
r "Enter your Phone Number:",Phonenumber1
s Details.Phonenumber = Phonenumber1
r "Enter your Blood Group:", Bloodgroup1
s Details.Bloodgroup = Bloodgroup1
r "Enter Your Desination:",Desiation1
s Details.Desination = Desiation1
r "Enter your Domain :",Domain1
s Details.Domain = Domain1
s status = Details.%Save()
}

ClassMethod PrintDetails()
{
W ##class(Sample.Employeedetails).#Name
}
```
