## Developer Community Update, 2nd of December 2016

Hi!

We updated the DC a bit.

Member's answers

With this release, you can see the answers on the member's page too.

**Email Address:** Timothy.Leavitt@intersystems.com

**Title/Position:** Developer - ERP

**Company:** InterSystems Corporation

**Background:**

E.g. see the answers by [Timothy Leavitt](#).

Post updates don't move the post to top

So we can fix the tags, spelling and make other updates to the post and it would not be moved to top anymore.

Now only new answers and comments move the post to the top of the feed.

RSS and other bug fixes

Now bugs for RSS feeds are fixed.

Also, Votes renamed to Rating and has the color indication now. Green means good!

Stay tuned for the next DC improvements!
