Top 20 Articles of the Year 2016

Hi, Community!

You published 499 articles regarding InterSystems technology in 2016.

Here are the most noticed and interesting articles of the year.

[Introducing new JSON capabilities in Caché 2016.1](#), by [Stefan Wittmann](#) 2478

[InterSystems Data Platforms and Performance Part 4 - Looking at Memory](#), by [Murray Oldfield](#) 1598

[Writing better-performing loops in Caché ObjectScript](#), by [Timothy Leavitt](#) 1509

[InterSystems Example Reference Architecture for Microsoft Azure Resource Manager (ARM)](#), by [Mark Bolinsky](#) 1468

[Class Queries in InterSystems Caché](#), by [Eduard Lebedyuk](#) 1441

[Caché Class Explorer — exploring Caché in the UML notation](#), by [Nikita Savchenko](#) 1249

[Setting the TZ Environment Variable on Linux](#), by [Erik Hemdal](#) 1153

[InterSystems Data Platforms and performance – Part 3: Focus on CPU](#), by [Murray Oldfield](#) 1149

[JSON changes in Caché 2016.2](#), by [Stefan Wittmann](#) 1046

[Why Atelier? And what about Studio?](#), by [Bill McCormick](#) 921

[Announcement about the Caché 2016.2 and 2016.3 Field Test Programs](#), by [Bill McCormick](#) 884

[Asynchronous Websockets -- a quick tutorial](#), by [Fabian Haupt](#) 881

[InterSystems Data Platforms and performance – Part 1](#), by [Murray Oldfield](#) 880

[Announcing Support for Docker Container Technology as a Platform in 2016.1 Release](#), by [Luca Ravazzolo](#) 843

[Introducing the Document Data Model in Caché 2016.2](#), by [Stefan Wittmann](#) 824

[Caché Open Authorization Framework (OAuth 2.0) implementation - part 1](#), by [Daniel Kutac](#) 762

[Database Mirroring without a Virtual IP Address](#), by [Mark Bolinsky](#) 761

[InterSystems Data Platforms and performance - Part 5 Monitoring with SNMP](#), by [Murray Oldfield](#) 758

[Announcing EWD 3: Integrating the JavaScript, Node.js and Cache communities](#), by [Rob Tweed](#) 758

[InterSystems Data Platforms and performance – Part 2](#), by [Murray Oldfield](#) 751

Most voted

Introducing new JSON capabilities in Caché 2016.1, by Stefan Wittmann 30

Atelier 1.0 Release, by Bill McCormick 17

Merry XMas :) , by Fabian Haupt 16

Writing better-performing loops in Caché ObjectScript, by Timothy Leavitt 15

How we learned to stop worrying and love InterSystems Ensemble, by Tamara Lebedeva 15

Free Text Search: The Way To Search Your Text Fields That SQL Developers Are Hiding From You!*, by Kyle Baxter 15

Provision a Caché application using Ansible - Part 1, by Murray Oldfield 13

InterSystems Data Platforms and performance – Part 1, by Murray Oldfield 13

Caché Class Explorer — exploring Caché in the UML notation, by Nikita Savchenko 13

On $Sequence function, by Alexander Koblov 13

Importance and Collection of Exact Version Information ($zv / $zversion), by Can Gencler 13

Class Queries in InterSystems Caché, by Eduard Lebedyuk 12

Introducing the Document Data Model in Caché 2016.2, by Stefan Wittmann 12

SYSLOG - what it really is and what it means, by Cindy Olsen 12

Weather station on Arduino, by Eduard Lebedyuk 11

Database Mirroring without a Virtual IP Address, by Mark Bolinsky 11

InterSystems Data Platforms and Performance Part 4 - Looking at Memory , by Murray Oldfield 11

Improve SQL Performance for Date Range Queries, by Kyle Baxter 11

The Art of Mapping Globals to Classes 1 of 3, by Brendan Bannon 11

Ensemble and file outbound adapters - a small hint, by Daniel Kutac 11
