Accent is missing in French character of "e"

Hi,

English word ="Other anemias" It is converted to french as printing "Autres anemies". But correct word is " Autres anémies". I wrote a program in the cache. But did not get the correct output So How to solve this issue

```
tstr(string,map)
     s map=$lb
(192,194,196,199,201,200,202,203,206,207,212,214,217,219,220,215,224,226,228,231,233,
232,234,235,238,239,244,246,249,251,252,247,193,195,197,198,208,209,222,223,204,205,2

3,160,161,162,163,164,165,166,167,168,169,170,171,172,173,174,175,176,177,178,179,180
,181,182,183,184,185,186,187,188,189,222,191,224,225,226,227,228,213,218,231,232,233,

55)
s string="Autres anemies"
s length = $l(string)
          f i=1:1:length {
              s c = $a($e(string,i))
              if (c >= 128 && c <= 255) {
                  s chars = string
                  f j=i:1:length {
                      s $e(chars,j) = $c($$tchar($a($e(chars,j)),map))
                   q $e(chars,j)
                  }
              }
          }
tchar(c,map)
          s retval = c
          s:(c >= 128 && c <= 255) retval=$lg(map,(c-128))
          q retval
```
