Convert to JSON string

here is my \$ZV string "Cache for Windows (x86-64) 2016.2.1 (Build 803) Wed Oct 26 2016 12:43:35 EDT"

two questions

1. How do i convert any Persistent object to JSON String ?
2. How do i convert any Register object to JSON string ?
3. Do i need to extend from any adaptor class for 1 & 2 ?

[#JSON](#) [#Object Data Model](#) [#Caché](#)
