It's upgrade season - is your SQL Body ready?! Keep your SQL Slim and Toned for Upgrade Season!

It's almost time to get your customers upgraded to new versions - are you worried about showing off your SQL Performance after upgrades? If you want to upgrade without worrying, then I have just the program for you!!! Check out this video from Global Summit 2016 featuring yours truly explaining how to upgrade a system without worrying about pesky SQL queries showing on your waistline!

https://www.youtube.com/watch?v=GfFPYfloRg

Unfortunately the video started after the Frozen Musical Sing-a-long, but it's 30 minutes of the most fun you'll have while learning tools and tips for Caché SQL!

Questions? Comments? You know you can leave them here!

TL;DW: If you're on a version older than 2016.2, then you'll need to do a lot of testing. Once you hit 2016.2, upgrades are easy as "Hello World!"
