## Export Global in CSV File

Hi All,

I need urgent help,

I want to export the values from Global to CSV file.

Values are in global are :

^Global1(1)="1,2,3,4"

^Global1(2)="5,6,7,8"

.

.

.

^Global1(n)="n,n,n,n"

I want output in CSV File as:

1,2,3,4

5,6,7,8

.

.

.

n,n,n,n

I made a class:

ClassMethod ExportNewSchemaGlobals(pFile)

```
{
  Set ary("^Global1")=""
  Set pFile = "C:/Test.csv"

  Set ary = ##class(%Library.Global).Export(,ary,pFile)
}
```

[#CSV #Caché](#)
