select sql error

hi

I execute sql like this: select * from DHC_PatBillDetails where PBD_PBO_ParRef>='2046121'

Fields within SQL table SQLUser.DHC_PatBillDetails:

Filter: Page size: Items found: 25

FIELD_NAME*	DATATYPE*	COLUMN_NUMBER*	REQUIRED*	UNIQUE*	COLLATION_FUNCTION*	HIDDEN*	MAXLEN*	BLOB*	CONTAINER_FIELD*
PBD_PBO_ParRef	%Library.String	0	Yes	No		No	254	No	
PBD_RowId	%Library.String	1	Yes	Yes	EXACT	No	254	No	

error message:

The results of executing the SQL query are shown below:

Last update: 2017-07-22 12:33:20.407

SQLCODE: -400 Row count: N/A

ERROR #5540: SQLCODE: -400 Message: <SUBSCRIPT>copy+17^%oqacpre ^||%sql.smd(1,"ifn","")ERROR: %sqlcq.DHCdAPP.810.MAC(8) : <SUBSCRIPT>copy+17^%oqacpre ^||%sql.smd(1,"ifn","") : SQLTEXT: select * from dhc_patbilldetails where PBD_PBO_ParRef>='2046121'

but the sql: select * from DHC_PatBillDetails where PBD_PBO_ParRef='2046121' can be executed successfully

why?
