Answer:

Hi Rubens Fabian wrote a great article about RegEx matching in the Routes here:

<https://community.intersystems.com/post/advanced-url-mapping-rest> However, I don't believe that you can do conditional expressions inside the Route. I think you would instead have to do this in your Method code (**happy** to be corrected by someone more clever than I am) Vote up! Vote down! Rating: 1 ...

Answer by Chris Stewart 12 days ago

The updated search feature introduces full-text scan, auto complete for the key words, filters on articles, questions, comments, members and works faster.

Here is [the small video](#) on how it works.

Also, we fixed a few bugs and made DC faster.

Hope you like it!

Stay tuned for the next release and introduce your issues here in comments or and enhancement requests and other issues in the [DC Feedback group!](#)
