Developer Video of the Week: Tier 1 Applications in a Virtual Environment

Hi Community!

Check the new video on InterSystems Developers YouTube Channel:

Tier 1 Applications in a Virtual Environment

This video is a session from Global Summit 2016 which explains how to deploy applications based on InterSystems' technology using VMware.

If you have not subscribed to the InterSystems Developers YouTube Channel yet, let's get started right now.

Post any questions about the video in the comments of this post.

Enjoy! 🙂
