How to add a new line in email?

Hi, folks!

I'm sending emails with %Net.MailMessage.

How can I add a new line for the email body?

The code is:

```
dim msg as %Net.MailMessage = ##class(%Net.MailMessage).%New()  
set msg.Charset="UTF-8"  
do msg.TextData.Write("Dear  "_Username)  
do msg.TextData.Write("Line1")  
do msg.TextData.Write("Line2")  
And I'm getting in email:
```

Dear UserLine1Line2

How can I get:

Dear User

Line1

Line2
