Developer Video of the Week: DeepSee Webinar in Russian With English Subs

Hi, Community!

If you do not know much about DeepSee technology, this video on is exactly for you:

DeepSee Webinar

In this webinar, @Eduard Lebedyuk talks about the possibilities of DeepSee technology:

- DeepSee is an embedded business intelligence technology and a set of tools for building Business Intelligence solutions.
- DeepSee works with structured and unstructured data, supports predictive modelling.

You can find this webinar in a dedicated DeepSee in Russian playlist on the InterSystems Developers YouTube Channel. Though webinar is in Russian, video goes with English subs.

So, check the new video and post any questions in the comments of this post.

Enjoy!
