## ? Where/How can we touch IRIS ?

As **IRIS** was announced yesterday by Paul Grabscheid I would be highly interested to get in touch with it.

- How can we get qualified for a closer view ?
- Where can we get some (preliminary) description + documentation.
- Is there any FT available ?

I'm especially interested in the areas around included/embedded/attached JVM and SPARK .

## New Embedded Language Architecture

Efficient, direct  
connect design

Simplified  
deployment +  
management +  
operations

Extensible  
beyond Java

## Key Innovations: SPARK

Wealth of Operational Data

Native SPARK Adapter  
Direct, High Performance

Advanced Analytics

Industry Standard  
Open Source
