UnitTest : A Mocking Framework for InterSystems objectscript classes.

It is with great pleasure that the CIUSSS de l'Estrie - CHUS is sharing the mocking framework it developed and presented at the InterSystems Summit 2017. I will update this post with more detailed instructions in the next few weeks but I wanted to share the code and presentation quickly :

<https://gitlab.com/ciussse-drit-srd-public/Mocking-Framework>

I hope you'll find this useful for your unit testing. We are using this extensively for the last 2 years and it really works well! The repo is public, feel free to submit enhancements!

Do not forget to enable the %UnitTest in your SMP. Instructions are online at
<http://docs.intersystems.com/latest/csp/docbook/DocBook.UI.Page.cls?KEY=...>

Kind regards

André-Claude Gendron
