## browse sql record

Hi, World

this is i field in my global:

 $\label{lem:continuity} $$ \{ "profile \underline{id}": "9XOzzcI8NfSUjxAhEt0cTLRejwmp6HPi", "biometrics": [\{ "timestamp": "2017-05-17T13:45:40", "utcount of the profile \underline{id}": "9XOzzcI8NfSUjxAhEt0cTLRejwmp6HPi", "biometrics": [\{ "timestamp": "2017-05-17T13:45:40", "utcount of the profile \underline{id}": "9XOzzcI8NfSUjxAhEt0cTLRejwmp6HPi", "biometrics": [\{ "timestamp": "2017-05-17T13:45:40", "utcount of the profile \underline{id}": "9XOzzcI8NfSUjxAhEt0cTLRejwmp6HPi", "biometrics": [\{ "timestamp": "2017-05-17T13:45:40", "utcount of the profile \underline{id}": "9XOzzcI8NfSUjxAhEt0cTLRejwmp6HPi", "biometrics": [\{ "timestamp": "2017-05-17T13:45:40", "utcount of the profile \underline{id}": "591c540aac8f295479ee14ce" ] \} $$$ 

for information: it's respective key is "peyload"

my question is:

I want to extract the timestamps value, and the profileid value, how can i do?

thank's
