## Switch statement from JSON record

Hi , i have a JSON record as follow {value1,value2, value3}

i want to write my switch statement in this form:

```
<switch> my value  
<case> value1</case>  
<case>value2</case>  
<case>value3</case>  
?</switch>
```

is there any possibility to extract values from JSON record and put them in a switch statement?

thank's
