## Yet Another Developer Video of the week: Atelier - Create a New Project and Add to Source Control

Hi, Community!

Here is yet another video on [InterSystems Developers YouTube Channel](#):

[Atelier: Create a New Project and Add to Source Control](#)

Working with Atelier resources within your version control system will be easy after watching this video. You will learn how to both add resources to projects and track those projects using version control.

Don't forget to check a [dedicated Atelier playlist](#) where you can find all the videos about Atelier.

So, check the new video and post any questions in the comments of this post.

Enjoy! 😊
