## New Video: iKnow What You'll Do Next Summer

Hi, Community!

Check a new session recording from Global Summit 2017:

[iKnow What You'll Do Next Summer](#)

The task is to incorporate raw textual data in predictive modeling projects. [@Benjamin De Boe](#) discusses how InterSystems products support PPML to execute predictive models.

What is more? This video shows how to use iKnow to feed information gleaned from textual data into predictive modeling applications such as Apache Spark and illustrates the concept by giving a real-world example.

See [additional resources here](#).

And you are very welcome to watch all the videos about iKnow in a [dedicated InterSystems iKnow playlist](#) on our [InterSystems Developers YouTube Channel](#).

Enjoy! 😊
