

Question

[Roger de Coninck](#) · Feb 19, 2018

Is there a way to visualize the package structure in the “open atelier class routine”?

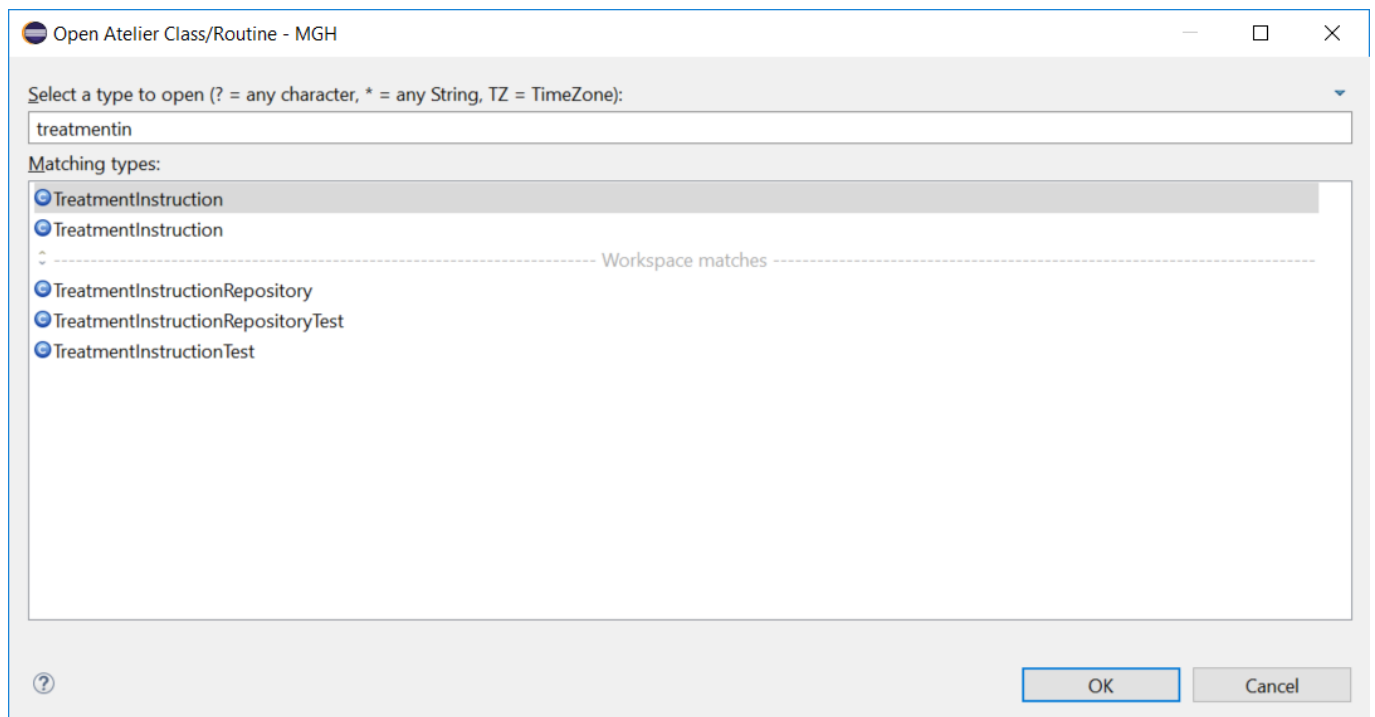

When selecte the menu Navigate/ open atelier class routine it shows all available classes.

Duplciate classes are shown multiple times without a package structure (see example below).

Is there a way to visualize the package structure in the “open atelier class routine”?

Best Regards

Roger de Coninck.
