New Video: SQL – Things You Should Know

Hi Community!

New session recording from Global Summit 2017 is already on [DC YouTube Channel](#):

[SQL – Things You Should Know](#)

Task: Learn about several SQL features that are very useful but may not be well known.

Approach: Propose several problems and show how they can be solved using SQL features. Both new and (possibly) new-to-you features will be covered.

In addition, please check [InterSystems Online Learning Course](#).

What is more?

Soon this session recording will turn into a Video Challenge on [InterSystems Global Masters Advocacy Hub](#), where you can also complete many more other entertaining and informative challenges.

Feel free to ask any questions about the video in the comments of this post.

Enjoy!
