Changes in Global Masters Program: New Level, New Badges, New Possibilities

Hi Community!

As you know we have Global Masters program — [InterSystems Data Platform Advocacy Hub](#).

All Global Masters members (Advocates) can achieve various levels of advocacy which depends on contributions on Developer Community and activity in Global Masters.

Every new level opens new type of challenges/tasks and new types of rewards.

We are excited by how engaged you are with Global Masters but realised that we have a really great gap between initial level Insider and the next level Specialist. Indeed, Specialist level demands really great achievements: 10 articles, 10 questions on DC, article with 1,000 views.

So we introduced a new level of advocacy with name "Advocate".

See the details below.

So, member advances to "Advocate" level if gets any 3 of the following new badges:

Badge's Name		
DC Author		Awarded after y
InterSystems Researcher		Awarded after y

Badge's Name		
		
DC Commenter		Awarded after y
DC Problem Solver		Awarded after y
DC Recruiter		Awarded after y

Badge's Name		
		
Global Master of the Month		Awarded after y Masters Advoca

We introduced new challenges and rewards which available for Advocate level only – check it out!

The full list of badges can be found in the dedicated [Global Masters Badges Descriptions](#) post.

If you have not joined InterSystems [Global Masters Advocacy Hub](#) yet, let's get started right now! Details you will find [here](#).

And we promise continuously introduce new interesting opportunities and rewards for different levels - stay tuned!👏
