(Webinar July 24) Sharding as the basis of Scaling in InterSystems IRIS Data Platform

Hi Everybody!

We are pleased to invite you to the upcoming webinar "Sharding as the basis of Scaling in InterSystems IRIS Data Platform" on 24th of July at 10:00 (Moscow time)!

The webinar focuses on the sharding technology that offers new capabilities for horizontal scalability of data in the InterSystems IRIS platform. Parallelization of data storage and processing power allows you to dynamically scale your applications.

In particular, the following topics would be discussed in detail:

- sharding basics;
- usecases where it's advisable to use sharding;
- rapid creation of a sharding cluster with ICM;
- creating sharded cluster LIVE;
- advantages of using sharding with Apache Spark, JDBC.

Presenter: @ Vladimir Prushkovskiy, InterSystems Sales Engineer.

Audience: The webinar is designed for developers.

Note: The language of the webinar is Russian.

We are waiting for you at our webinar! [Register now](#)! 👍
