## Business Process Down(red color) but still Processing message

Hello ,

Ensemble Business Process seems like red color but it still processing message successfully. I have checked log, events, queue everything is clear. there is no log info or error in the history. If BP is in red color in the sense might have some issues, but is still processing messages successfully.

Can you guys please advice on this.

[#Business Process \(BPL\)](#) [#Ensemble](#)
