Terminal within Eclipse not connecting to localhost

[Lassi Autio](#) 8 August 2018

[Development Environment](#), [Terminal](#), [Microsoft Windows](#), [Atelier](#)

I want to connect to my local terminal via Eclipse in Windows. I am able to connect to the server but not my own machine. It opens from "cube icon" -> Terminal but I want to open and connect to it in Eclipse.

How should I connect to it?
