Developer Community October 2018 Release

Hi, Community!

It's October! And we have DC October 2018 release here!

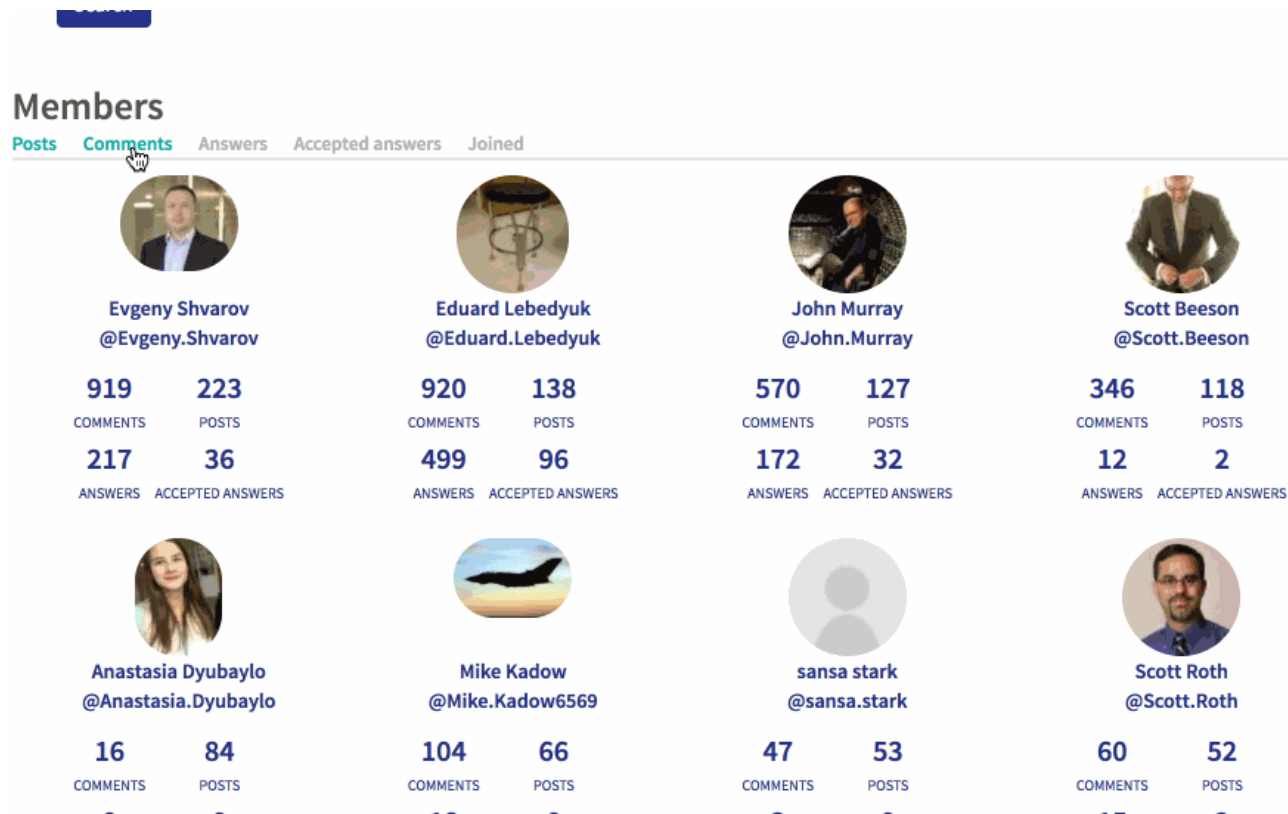

What's cool?

- Performance on creation and editing posts
- Member's analytics
- Copy-n-paste Image support in editor
- Better highlighting for ObjectScript.

See the details inside!

Modified Members Page

Introduced more stats on [Members](#) page (Answers, Accepted answers) and added a few sorting options:

The screenshot shows the 'Members' page with a navigation bar containing 'Posts', 'Comments', 'Answers', 'Accepted answers', and 'Joined'. A mouse cursor is pointing at 'Comments'. Below the navigation bar, there are eight user profiles arranged in two rows of four. Each profile includes a circular profile picture, the user's name, their handle, and a grid of statistics: Comments, Posts, Answers, and Accepted Answers.

User	Handle	Comments	Posts	Answers	Accepted Answers
Evgeny Shvarov	@Evgeny.Shvarov	919	223	217	36
Eduard Lebedyuk	@Eduard.Lebedyuk	920	138	499	96
John Murray	@John.Murray	570	127	172	32
Scott Beeson	@Scott.Beeson	346	118	12	2
Anastasia Dyubaylo	@Anastasia.Dyubaylo	16	84		
Mike Kadow	@Mike.Kadow6569	104	66		
sansa stark	@sansa.stark	47	53		
Scott Roth	@Scott.Roth	60	52		

Member page now has analytics

As you know we gather DC analytics in DeepSee.

With this release, we introduced a link to a member's analytics on posts performance. Let's see how it works:

Fix Editor Performance

This was a pain: Create New Post and Edit Post commands could take up to 20-30 sec. Now it is 2-3 sec.

Better Images Support in Editor

Now you can copy and paste images to the editor. E.g. like that:

Fix Editor Performance

This was a pain: Create New Post and Edit Post commands could take up to 20-30 sec. Now it is 2-3 sec.

Better Images Support in Editor

Now you can copy and paste images to the editor. E.g. like that:

Better Object Script highlighting

Let's test it:

```
Class Ideal.ObjectScript
{
  Parameter Version = 1.0;
  ClassMethod HelloWorld() As %String
  {
    return "Hello World!"
  }
}
```

Better Object Script highlighting

Let's test it:

And as you can see, it works!

```
Class Ideal.ObjectScript
{

Parameter Version = 1.0;

ClassMethod HelloWorld() As %String
{
    return "Hello World!"
}

ClassMethod SystemInfo() As %String
{
    return $zv
}

ClassMethod WriteToDevice()
{
    write "The version of the class: "_.#Version,!
    write "The version of the system: "_.SystemInfo()
}
}
```

Also, we solved a bunch of small problems, fixed a few bugs and introduced some new).

See the full list of [September 2018](#) solved tasks.

And see the [October 2018](#) plan and introduce your own requests.

Stay tuned!
