Upload file attachments (pictures, documents and videos...) HTML AND CACHE INTERSTEMS

Hello

Please I have a problem to save all name of files attached in table with date and load all files attached in directory
My code HTML

```
-----
<cache block="INCREAPRO">
  <form method="post" id="formupload" enctype="multipart/form-data" action="cache-call:SubmitUpload^MyMac"
data-upload-url="cache-call:FileUpload^MyMac">
  <input type="hidden" value="##/SERIENR##" name="SERIENR" />
  <input type="hidden" value="" name="FILE" id="upload-select-hidden" />
  <div id="upload-drop" class="uk-placeholder">
  <div id="upload-text" class="uk-text-center">
  <i class="uk-icon-cloud-upload uk-icon-small uk-text-muted"></i>clique to Upload<a href="javascript:void(0)"
class="uk-form-file">clique to upload <input type="file" id="upload-select"></a>
  </div>
  </div>
  <div id="progressbar" class="uk-progress uk-hidden">
  <div class="uk-progress-bar" style="width: 0%;">...</div>
  </div>
  <div class="uk-clearfix"></div>
  </form>
  <div class="uk-clearfix"></div>
</cache>
-----
```

My table class :

```
-----
/// Attachments URL for a Productfile
Property URL As %String;
```

```
/// Get and set property name of file
Property FileName As %String;
```

```
/// Get and set property extension file
Property FileExt As %String;
-----
```

Thanks for your help
