## New Video: Modernize Traditional Applications

Hi Developers!

New video from Global Summit 2018 is available now on [InterSystems Developers YouTube](#):

[Modernize Traditional Applications](#)

This video demonstrates how you can easily containerize your monolithic applications and move to a modern, agile, and more efficient DevOps-like working environment. To get the most from this session, attendees should be familiar with Docker containers.

**Takeaway:** By containerizing my traditional monolithic application, I can make improvements. piecemeal, and transition to a modern approach for development and deployment.

**Presenter:** [@Sergei Shutov](#)

Big applause to the speaker! 

And...

Additional materials to the video you can find in this [InterSystems Online Learning Course](#).

Take pleasure in watching this video!
