## New Video: Intelligent Interoperability

Hi Community!

New session recording from Global Summit 2018 is available on [InterSystems Developers YouTube Channel](#):

[Intelligent Interoperability](#)

In this video, we will talk about the “ intelligent interoperability ” capabilities of InterSystems IRIS. After describing InterSystems IRIS integration and embedded analytics capabilities, we will present two different demonstrations. One handles basic interoperability. The other shows intelligent interoperability by embedding machine learning algorithms into composite business processes.

Takeaway: By combining integration and embedded analytics, InterSystems IRIS can enhance my applications with “ intelligent interoperability. ”

Presenter(s): [@Joe Lichtenberg](#) and [@Amir Samary](#)

Great session, thank you guys! 

Additional materials to the video you can find in this [InterSystems Online Learning Course](#).

And...

You are very welcome to watch all the videos from Global Summit 2018 in a [dedicated Global Summit 2018 playlist](#) on [InterSystems Developers YouTube](#).

Enjoy and stay tuned!
