Advent Of Code 2018

Are you ready for the next [Advent of Code](#) this year?

Just a few days left, the first puzzles will unlock on December 1st at midnight Eastern Time.

Not sure if I will manage to find time to solve those puzzles as quickly as last year, but hope some of you will do. We still have our leaderboard, you can join 130669-ab1f69bf. So, we will see who the best.
