New Video: Adopting InterSystems IRIS

Hi Community!

Please welcome a new video on InterSystems Developers YouTube Channel:

Adopting InterSystems IRIS

This video provides an overview of what it takes to move an existing Caché or Ensemble application to InterSystems IRIS. You will learn that migration is not urgent (unless you want to take advantage of new features in InterSystems IRIS) but that it is often less complex than you might expect. We will also discuss configurations in which InterSystems IRIS, Caché, and/or Ensemble can coexist.

Takeaway: Migrating my existing applications to InterSystems IRIS doesn't have to be a huge headache.
Presenter: @ Andreas Dieckow
