iris.node not found

I followed the instructions in the documentation

<https://docs.intersystems.com/irislatest/csp/docbook/DocBook.UI.Page.cls...> (Install iris.node on nodejs for windows). Procedures made:

=> Copy iris.node to the location specified in the NODEPATH environment variable: C:/Program Files/nodejs

=> I used: `var irisobj = require('iris')` on my js file

But is not work. Error: The specified procedure could not be found.
