## Top InterSystems Data Platform Articles in 2018

Hi Community!

It's time to announce the best articles on InterSystems Data Platforms you published in 2018!

And here are three best articles for the year (criteria is the number of views):

First place: [K-Means clustering of the Iris Dataset](#), by [Niyaz Khafizov](#) 1564

Second place: [Continuous Delivery of your InterSystems solution using GitLab - Part I: Git](#), by [Eduard Lebedyuk](#) 1206

Third place: [Replacing ZEN - Part 1 - Introduction](#), by [Peter Cooper](#) 933

Congrats to authors!

And what are the best articles by InterSystems Data Platforms?

See below

InterSystems IRIS

First place: [K-Means clustering of the Iris Dataset](#), by [Niyaz Khafizov](#) 1564

Second place: [Container - What is a Container?](#), by [Luca Ravazzolo](#) 896

Third place: [Using InterSystems IRIS Containers with Docker for Windows](#), by [Bob Binstock](#) 535

Caché

First place: [Continuous Delivery of your InterSystems solution using GitLab - Part I: Git](#), by [Eduard Lebedyuk](#) 1206

Second place: [Replacing ZEN - Part 1 - Introduction](#), by [Peter Cooper](#) 933

Third place: [REST Design and Development](#), by [Eduard Lebedyuk](#) 900

Ensemble

First place: [Sending Alerts to Mobile Phone using Pushover from HTTP.OutboundAdapter](#) by [@Mark Connelly](#)

Second place: [Sending Alerts from Ensemble via Telegram](#), by [Nikolay Soloviev](#)

Third place: [Send digest emails for workflow tasks with Publish/Subscribe](#) by [Eduard Lebedyuk](#)

Though I'm not eligible for the competition my article gathered a solid audience too: [Class vs Routine in ObjectScript. What Do You Use And Why?](#) with 1,270 views.

Please see top-20 articles about InterSystems Data Platforms of 2018 below by views, votes, and comments.

#### Most viewed

[K-Means clustering of the Iris Dataset](#), by [Niyaz Khafizov](#) 1564

[Class vs Routine in ObjectScript. What Do You Use And Why?](#), by [Evgeny Shvarov](#) 1270
