Is Cache.dat dependant on the operating system?

[Scott Roth](#) 7 January 2019

[Backup](#), [Databases](#), [Field Tests](#), [Object Data Model](#), [System Administration](#), [Ensemble](#)

We are currently using Ensemble on AIX. We are on 2015.2.2. If I install Field Test on a windows desktop, is it possible that I can import the Cache.dat from my AIX server, so I can do some Proof of Concept development?

Thanks

Scott
