New Video: Choosing a Public Cloud

Hi Community!

Please welcome a new video on [InterSystems Developers YouTube Channel](#):

[Choosing a Public Cloud](#)

In this video, we will compare and contrast capabilities of three major cloud providers: Amazon Web Services (AWS), Azure, and Google Cloud Platform (GCP). We will also discuss best practices for deploying InterSystems products in each of them.

Takeaway: InterSystems gives me the option of deploying in several different clouds.

Presenter: [@Ray Wright](#)
