New Video: Choosing a Public Cloud

Hi Community!

Please welcome a new video on InterSystems Developers YouTube Channel:

Choosing a Public Cloud

In this video, we will compare and contrast capabilities of three major cloud providers: Amazon Web Services (AWS), Azure, and Google Cloud Platform (GCP). We will also discuss best practices for deploying InterSystems products in each of them.

Takeaway: InterSystems gives me the option of deploying in several different clouds.
Presenter: @ Ray Wright
