New Video: Fast Provisioning in Any Cloud

Hi Community!

Please welcome a new video on [InterSystems Developers YouTube Channel](#):

[Fast Provisioning in Any Cloud](#)

This video provides an overview and demonstration of InterSystems Cloud Manager (ICM.) We will explore how a “cloud culture” can promote agility, infrastructure-as-code (IaC), and DevOps principles whether you are deploying on-premises or in a public cloud. To get the most from this video, attendees should be familiar with the basics of container technology.

Takeaway: InterSystems Cloud Manager can help as my organization evolves to embrace today's cloud culture.
