String to date

I am trying to convert a string to date but can not get it to work I have function that I would like to take in a date string and covert it to date object

here is the ezample so far can not get it to work any help appreciated

```
set p="12/03/2019"

w $System.SQL.TODATE(p,"YYYY-MM-DD")

<ILLEGAL VALUE>todate+32^%qarfunc
```

if I try this still get the wrong value returned

```
set p="12/03/2019"
w $ZDATE(p,3)
1841-01-12
```
