InterSystems Open Exchange Digest, March 2019

Hi Community!

This is the update on what are the new applications submitted on [OpenExchange](#) in March 2019

New Applications

[isc-tar](#) published by [@Dmitry Maslennikov](#)

Compact files as TAR or Extract files from TAR files

[Light weight EXCEL download v.1.0](#) published by [@Robert.Cemper](#)

This is the working example of a light weight export to EXCEL based on data in SAMPLES namespace. Good old CSP is well equipped to produce HTML tables accepted from EXCEL as input. With modern Browsers you don't even need and tags. So the required code around your SQL result set is really slim. And you are free to add any formatting you need either by HTML or in SQL.

[PythonGateway v.0.7](#) published by [@Eduard Lebedyuk](#)

Python Gateway for InterSystems Data Platforms.

[Adopted Bitmaps v.1.0](#) published by [@Robert.Cemper](#)

This is a running example of the Bitmap Adoption

[WebSockets Tutorial v.1.0](#) published by [@Lily Taub](#)

A short tutorial on WebSockets in InterSystems IRIS 2018.1+ and Caché 2016.2+

[Sync Data with DSTIME v.1.0.0](#) published by [@Robert.Cemper](#)

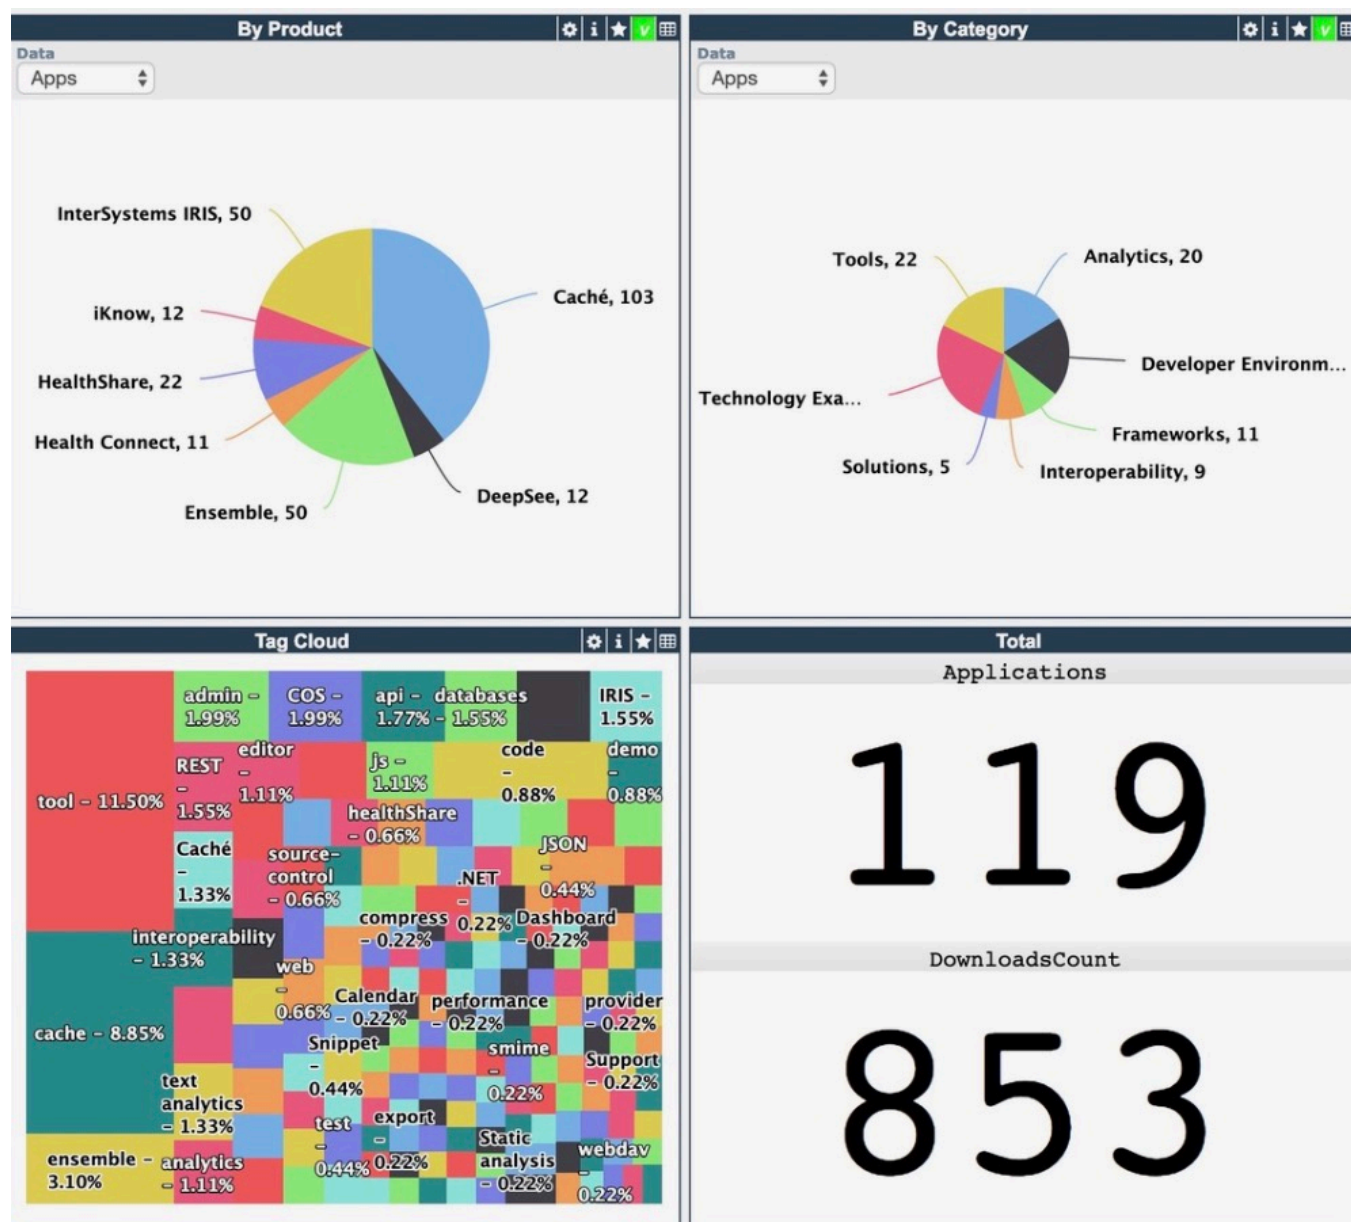

Other Sync-Tools just work from Caché/IRIS to Caché/IRIS. Synchronizing your data to some external DB you requires some other solution. DSTIME can do it.

[HL7 and SMS Interoperability Demo v.1.3](#) published by [@Amir Samary](#)

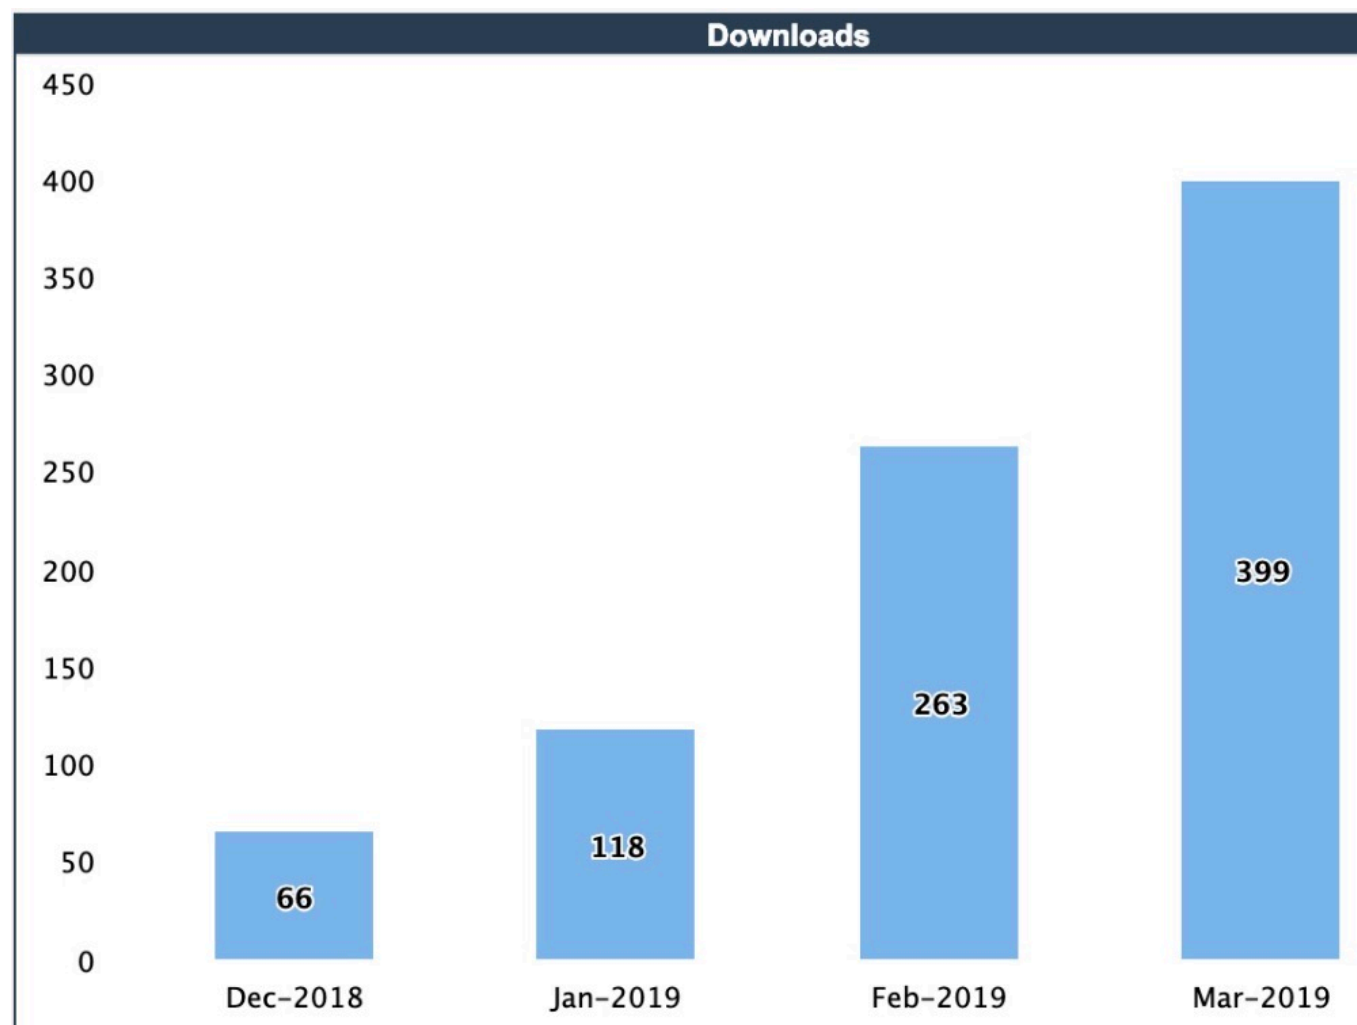

This demo shows how easy it is to integrate an Electronic Medical Record system that is sending HL7 messages with AWS.

General stats

Total applications: 119

Downloads by months:

The most popular apps in March 2019 by downloads

| Package | Downloads |
|---|-----------|
| WebTerminal | 25 |
| ObjectScript Class Explorer | 25 |
| Design Pattern in Caché Object Script | 24 |
| Execute Server Commands from Caché / Ensemble / IRIS | 21 |
