## New Video: Implementing SSO for UI Integration

Hi Community!

New video is already on [InterSystems Developers YouTube Channel](#):

[Implementing SSO for UI Integration](#)

In this video, we will present how to implement Single-Sign-On (SSO) using Security Assertion Markup Language (SAML) as the main shared authentication/authorization mechanism. An implementation example using the Clinical Viewer will demonstrate a secure, seamless UI integration between your HealthShare user portal and any third-party web application.

Takeaway: I know how to use SAML to implement SSO in HealthShare.

Presenter: [@Francois Le Floch](#)

Additional materials to the video you can find in this [InterSystems Online Learning Course](#).

Feel free to ask any questions about the video in the comments of this post.

Enjoy watching the video!
