How to remove escape characters from JSON

I am still new to cache objectscript and am trying to figure out how I would go about removing the escape characters from my JSON below. When I call the \$toJSON method it's adding the "/" character in the file path.

```
{"FileStatus":"P","Path":" //somepath //test //test123 //filename.txt","InterchangeOID":"100458"}
```

My Code:

```
set tJSONFile = {"FileStatus":pRequest.FileStatus,"Path":pRequest.Path,"InterchangeOID":pRequest.  
InterchangeOID}
```

```
set tJSONFile = tJSONFile.$toJSON()
```

Thanks.
